THAT'S WHY

**HOTEL SUTTER**  
San Francisco  
is patronized by the discriminating  
Management  
GEORGE WARREN HOOPER.

## PERSONAL

GEORGE RYAN, assistant postmaster, left this morning for Carson City and coast points where he will spend his vacation.

JOHN MURRAY was a passenger this morning for San Francisco, where he will spend a month vacationing.

ED. DUNN was a passenger today for Salmon, Idaho.

THOMAS O'CONNELL departed for Reno today where he will spend a few days visiting friends.

JACK NATTRASS, who has been ill for some time left for the coast today where he will enter a hospital.

L. D. GORDON, general manager of the Round Mountain Mining company was a passenger for the coast today.

JOHN Y. JONES, one of the pioneer miners of the district departed for San Francisco today where he will spend the next month.

A. L. WILDE and wife departed yesterday for Lake Tahoe, where they will spend a few days. They will then continue on to the coast and make their summer home at Bolinas Bay.

E. P. KIMBALL motored in from Lafayette this afternoon.

J. LES SMITH, JR., accompanied by his chum, Bill Elliott arrived this morning from the Hitchcock Military Academy, San Rafael Calif. Elliott will visit with his classmates for a few weeks before returning to his home in Oakland.

D. J. FITZGERALD who has been confined in his bed for the past week is again at his place of business. Fitz had a slight attack of rheumatism.

## RENO ROUNDUP FULL OF THRILLS

Vigorous, red-blooded exploits that made history in the great west will be repeated in Reno, July 2, 3, 4 and 5, at which time the great Reno Roundup will be staged. Hundreds of cowboys and cowgirls, famous scouts, pony express riders, Indian fighters and pioneers will be present. Many have already entered their names in the contests now being arranged by the management.

Among famous western characters who will perform are Johnnie Baker, foster son of Buffalo Bill, Colonel Kit Carson, grandson of the original Kit Carson and Captain Donnelly, Indian fighter. Reno is the center of the greatest raw country in the world. More than 200,000 head of cattle graze on the Nevada ranges. Many horses which have never been ridden or driven before will be brought to the Roundup to be ridden by famous horsemen. This is only the second roundup to be staged at Reno, but it already ranks with the Pendleton Roundups, Cheyenne Frontier days, Calgary Stampede and other famous exhibitions of western life based upon the wild west shows originated by Buffalo Bill. The national democratic convention of San Francisco is arranging through the roundup committee to close in time for delegates and eastern visitors to stop in Reno on their return eastward.

Residents of Reno are making great plans to extend hospitality to all visitors. A tent city with all modern conveniences will be erected in the center of the town. This will house those who prefer to live out-of-doors during the great four-day event.

## BOLSHEVIK ENTER PERSIA

CONSTANTINOPLE, June 3.—The Persian legation here received a dispatch saying that the Bolsheviki had entered Teheran, the capital of Persia.

## NOTICE ENGINEERS

All members of Engineers' Union No. 423 are requested to be present at a meeting to be held tonight at 8 o'clock at the 400 Fellows' hall at 8 o'clock sharp. Big smoker and initiation. ad-J311. Geo. B. Cox, President.

## LONE MOUNTAIN IS QUITE ACTIVE

Mr. J. M. Cotter, manager of the Tonopah Gold Hill Development company property, situated in Lone Mountain, has purchased the 40 h. p. steam hoist and engine of the Aztec Aztec Divide and is moving the same to his company's Lone Mountain property today. This new equipment will replace an 18 h. p. hoist now on the property. The latter is being moved to another section of the same holdings where a new shaft will be immediately started.

Recent assays from the contact vein in the main claim at a vertical depth of 667 feet return 31 per cent lead and 24 ounces silver per ton across 30 inches of the vein. This vein occurs alone a contact of rhyolite and lime. For the past year Mr. Cotter has been quietly prospecting work on this ground until new machinery became necessary for deeper development.

The permanent zone of saturation was encountered at a depth of 530 feet. The ore above this level consists of lead-silver carbonates and below lead-silver sulphides. A large tonnage of \$30 to \$70 rock has been will be thoroughly explored by drifts and crosscuts.

Mr. Cotter reports his company well financed to carry forward a campaign of development with a large crew of men for another year. Since the holdings are but four miles from McSweeney Sliding on the T. & T. shipments of considerable high grade commercial ore will be made during the summer months. The Gold Hill property lies two miles northwest of the General Thomas mine and about four miles northeast of the Silverpach mine.

Location books are now for sale at The Bonanza office.

## AMUSEMENTS

### ELAINE HAMMERSTEIN IN A NEW ROLE

Elaine Hammerstein has been called the "debutante of pictures" because she looks like the sort of girl who would "come out" at a big party and ride and play her way through a season or two before she has a big church wedding and settles down as "one of our most popular matrons." In her latest picture, "The Shadow of Rosalie Byrnes," which will be shown at the Butler today, Miss Hammerstein essays something entirely different from the debutante phase. She is twins. And such twins! One is a refined lovely artist, the other is a flashy, thoughtless vaudeville performer. In this dual role the popular young star is able to draw some interesting contrasts in natures. She displays her ability to range from the sweet unspoiled girl of your dreams role to the intriguing, unscrupulous heart-breaker and home wrecker, an indication of her great versatility. A vivid contrast, too, is afforded in wearing apparel. As the vaudeville actress she flaunts the "glad rags" of an adventuress, while as the unspoiled concert artist she wears simple, well-tailored costumes that endear her to all persons with discrimination and good taste.

Added to the program will be the latest Pathe News. Tomorrow, Dorothy Dalton, "His Wife's Friend," a thrilling mystery story.

Coming, Saturday, Douglas Fairbanks.

## BIG SCHOONER HAS BIG SPREAD

PORTLAND, June 3.—When the six-masted schooner Oregon Pine goes to sea on her maiden voyage within a few weeks she will have a spread of 8000 yards of canvas, according to shipping authorities here. The Oregon Pine, a sister ship also nearing completion at a Portland shipbuilding yard, will have a like area of sails. The schooners will be the largest of their type on the Pacific, according to the builders.

The Oregon Pine and Oregon Fir were wooden hulls belonging to the Emergency Fleet corporation, which were bought and completed as schooners. From the deck to the point of the top-mast the distance is 210 feet, the six masts on the Oregon Pine being placed only a few days ago. The vessels are 237 feet long. Both vessels have already been chartered for lumber cargoes, the Oregon Pine being already started loading. Both will carry lumber to Australia. The owners of the vessels say the schooners will pay for themselves with two voyages.

## NO COMMENCEMENT FLOWERS

DENVER, June 3.—Flowers have been eliminated from the list of essentials of commencement of the city high schools this year. Student committees and principals decided that the customary floral attributes of graduation could be dispensed with more successfully than uniform dresses could be arranged.

Prospectors may find those popular triplicate location certificate books at the Bonanza office.

# BROKENHILLS FAST FORGES TO FRONT

RENO, June 3.—It is excellent opinion here that Governor Emmet D. Boyle has conferred a boon on the whole state by departing from his usual custom and going on record over his own signature in favor of the pretensions of a new Nevada mining district. The stamp of approval placed by the Governor on the property under development by the Broken Hills Silver Corporation in the new Broken Hills mining district in Churchill county, 63 miles southeast of Fallon and 45 miles north of Luning, after a personal examination, is quickly understood by a personal perusal of the exhaustive report thereon, made by Arthur Perry Thompson, formerly geologist of the Anaconda Copper company, and for Buckley Wells, president of the American Mining Congress. Mr. Thompson's report makes it clearly evident that Governor Boyle was eminently conservative in declaring, after his examination, that "the showings in the Broken Hills mine is the best I have seen in any new territory in Nevada for many years."

The report of Mr. Thompson is, in itself, a remarkable document of conservatism. For instance, he gives the average value of all ore blocked out in the mine as approximating \$15 per ton "without any sorting whatsoever underground." He further states that "by care in keeping the waste rock out of the ore in mining this average value could be increased." There are numerous places in the mine where good widths of ore are exposed assaying more than ten times the average value of the ore as given by Mr. Thompson. On the 50 foot level north of the shaft, ore better than 200 ounces per ton has been mined for the past few months by Stratford and Arthur, the discoverers and locators of the property, and shipped to the smelters. Such shipments as these aggregating 450 tons, have made up the production of the mine to date of approximately \$60,000.

In their operations Stratford and Arthur did not extract vein matter

## NATION WITHOUT POSTAGE STAMP

LONDON, May 15.—Palestine is now the only nation which has no postage stamp of its own. But representatives of the Zionist government here have informed London philatelists that this anomaly promises soon to be rectified, for with the establishment of Palestine as the national home of the Jewish nation, it is believed little time will be lost in emulating the examples of other small nations calling into being by mandates of the peace conference by the issuance of distinctive stamps.

## SHOE FACTORY CLOSED

WEBSTER, Mass., June 3.—A. J. Bates shoe factory announced today that the plant would be closed for an indefinite period because of the cancellation of orders and an uncertain market. The factory employs upward of 500 men.

## SAYS HE ACCEPTED NO SETTLEMENT FROM STATE

The following letter was received from John Obert, now in the Hohmann hospital, at San Francisco, Editor Tonopah Bonanza, Tonopah, Nevada.

Dear Sir: Some weeks ago there appeared an advertisement in a paper that I had made a settlement with the Industrial committee of the state of Nevada, for \$60 a month for life. I am informing you that the piece appearing in the paper was a misstatement, as I have made no settlement with the state of Nevada as yet.

JOHN OBERT.

## MARINE BILL IN CONFERENCE

WASHINGTON, June 3.—The merchant marine bill was sent to conference today by house speaker Gillett ruling that the conferees exceeded their authority in making certain changes in the measure.
